[20160203 Anaconda Sandoval talking points v.5.docx](#)

Hi Everyone,

Please find below a draft desk statement for your review. OPA, Harry, and Sarah have reviewed and approved. Talking with Margot, the strategy would be to send the following transmittal note with a copy of the letter to reporters if they submitted any inquires. (As of mid-afternoon, Margot had not received any press inquiries.)

I've also attached a copy of the talking points put together a week ago on the site listing. Many are still timely, and Heather and I will work with the site team and OPA in the next couple days to make a few tweaks to reflect current information.

If you have any additions or edits, please let me know. Thanks!

Dear x,

Please find attached correspondence from U.S. EPA to Governor Brian Sandoval regarding the potential addition of the Anaconda Copper Mine site to the Superfund National Priorities List. EPA seeks a timely response from the state on addressing contamination from the Anaconda site, and EPA will meet with state counterparts and local stakeholders on the issue prior the state's deadline for response on March 29, 2016.

EPA's goal in designating Anaconda as a Superfund site is to ensure liquids from mine heaps--a threat to human health and the environment--do not result in additional contamination of the Mason Valley Groundwater Basin.

- David

Harry

Send to governor, Leo and ndep tonight. Cc s tomorrow morning after we confirm receipt from governor's office.

Presuming this will get out to press, we need to put together short statement and/or talking points about our response.
